Making the Cross Members Find a piece of bamboo that is long enough to span your planflute and is around 1cm in diameter. Make a cut within both nodes with a hacksaw so you have a hollow tube. Hold the tube straight up on your workbench, and using a knife, simply slice the tube in half (fig.20). Not much pressure is required to split the bamboo, and usually is cuts like butter.

### **Make 4 Easy Bamboo Flutes for Free! - Instructables**

This one is made from 3 parts. The first is a 1" PVC coupler, the second is a 1" to 1/2" adapter, and the third part is a short length (approximately 2") of 1/2" PVC pipe that fits into the adapter. PVC pipe fittings usually fit together pretty tightly on their own, so it is not strictly necessary to cement them together for this project.
