Mauve How One Man Invented

Mauve: How One Man Invented a Color That Changed the World Paperback – May 17, 2002

Mauve: How One Man Invented a Color That Changed the World ...

I think the problem that faced the author was that Perkin made his discovery of mauve, the first chemical dye, at 18 and had left the business by his 30s. The author didn't know how to fill up the rest of the book and that's what most of it reads as--filler.

Mauve: How One Man Invented a Colour That Changed the ...

Simon Garfield presents an engaging account of one of the most colorful stories in the history of science and technology. In 1856, William Perkin was an eighteen-year-old chemistry student at the Royal College of London. Working on a treatment for malaria, Perkin by chance discovered mauve dye in his attempts to synthesize quinine from coal tar.
