MECH3417 Industrial Training - Mech Eng, HKU

Mechanical Engineering is one of the oldest and broadest engineering disciplines. Mechanical engineers require an understanding of core concepts of mechanics, kinematics, thermodynamics, materials science, structural analysis, and electricity. Mechanical engineers use these core principles along with tools like computer-aided engineering and product lifecycle management to design and analyze manufacturing plants, industrial equipment and machinery, heating and cooling systems, ...

Industrial Training is important for making an engineering student work ready. To graduate from an engineering program at UNSW all students must complete a minimum of 60 days of approved Industrial Training. It means, not only do you graduate with some real on-the-job experience, you also qualify for accreditation by Engineers Australia.
